VSU attaches great attention to strengthening cooperation with EU universities and improving the quality of management, education and research.

From Dec. 2016 to Oct. 2020 VSU was involved in the Erasmus+ CBHE projects, BOOST, the wider objective of which was to foster and promote further internationalization of Armenian Higher Education through development of national and institutional policy framework and tools. Due to this project VSU staff got a better understanding of comprehensive internationalization and marketing strategies.

In the frames of another Erasmus+ project, PRINTel, which aims at enhancing the innovative teaching/learning and implementing innovative technologies in the teaching process plans to establish a virtual academy of teaching and learning as a virtual platform for capacity building of the teachers and the students.

Due to VSU's active involvement in all the above-mentioned projects the implementation and design of new courses seems quite feasible for VSU staff.
